## Accredited Calibration

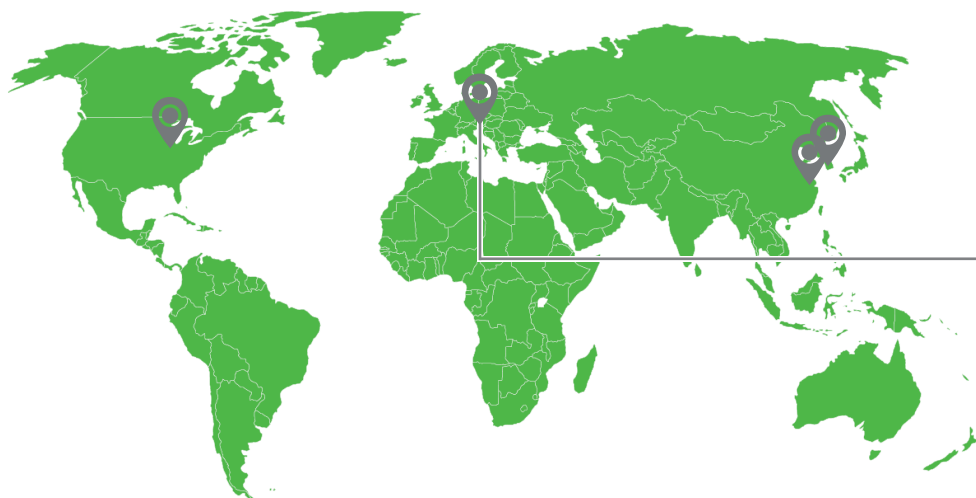

Accredited calibrations are performed at the E+E headquarters in Engerwitzdorf / Austria. The calibration laboratory operated by E+E Elektronik Ges.m.b.H. is accredited by Akkreditierung Austria according to EN ISO/IEC 17025 under the identification number 0608.

## Your Service PLUS:

Extend your Standard or Premium package to include Service PLUS. This means that all costs incurred for repairing the devices and spare parts are included.

## On Site for You. With Local Service Teams.

Your local contact person will be happy to advise you!

In addition to our headquarters in Austria, local service teams are also available to you in the E+E branches worldwide.

**Your benefits:** Uncomplicated logistics processing and fast delivery if you use the available service and calibration offerings.

### Measurand Portfolio

We offer our service and calibration packages for the following measured variables\*:

Humidity

Dew Point

Moisture in Oil

CO<sub>2</sub>

Air Velocity

Flow

Temperature

Pressure

\*) Services that are not yet available at all E+E locations will be performed at the E+E headquarters in Austria. Please get in touch with your E+E contact person.

Information on the calibration ranges of the various measurands can be found on [www.eplusecal.com](http://www.eplusecal.com)

For questions about our service and calibration packages or a specific offer, please call your E+E contact.
