Accredited Calibration

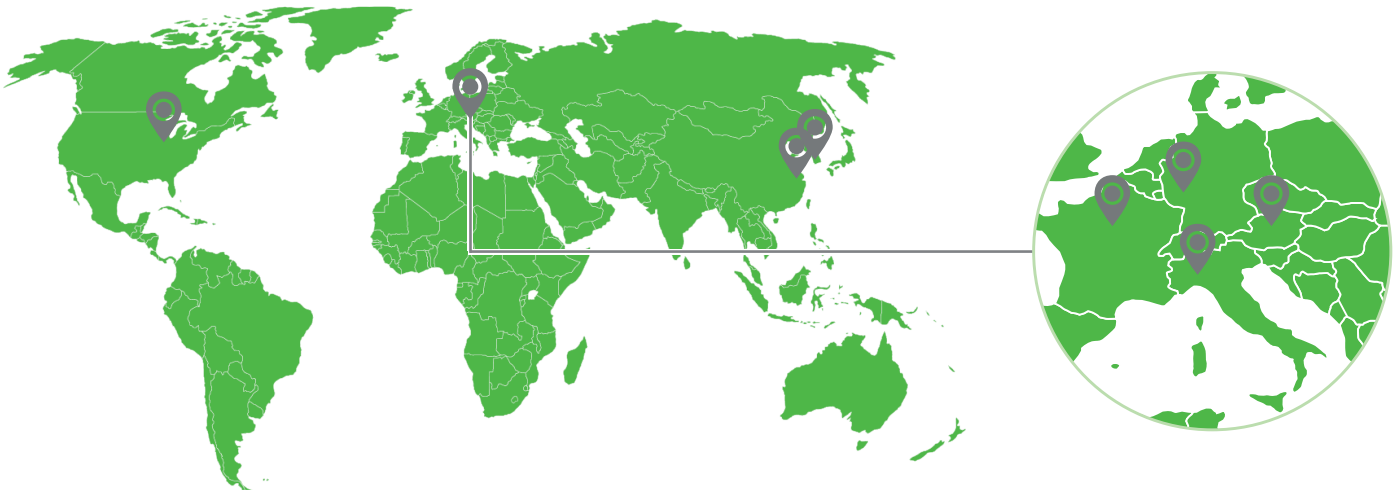

Accredited calibrations are performed at the E+E headquarters in Engerwitzdorf / Austria. The calibration laboratory operated by E+E Elektronik Ges.m.b.H. is accredited by Akkreditierung Austria according to EN ISO/IEC 17025 under the identification number 0608.

Your Service PLUS:

Extend your Standard or Premium package to include Service PLUS. This means that all costs incurred for repairing the devices and spare parts are included.

+ On Site for You. With Local Service Teams.

In addition to our headquarters in Austria, local service teams are also available to you in the E+E branches worldwide.

Your benefits: Uncomplicated logistics processing and fast delivery if you use the available service and calibration offerings.

Measurand Portfolio

We offer our service and calibration packages for the following measured variables*:

Air Velocity

Carbon Dioxide

Dew Point

Flow

Humidity

Moisture in Oil

Pressure

Temperature

*) Services that are not yet available at all E+E locations will be performed at the E+E headquarters in Austria. Please get in touch with your E+E contact person.

Information on the calibration ranges of the various measurands can be found on www.eplusecal.com

For questions about our service and calibration packages or a specific offer, please call your local E+E contact person.
